

**International seminar on the political ecology of coastal societies**

In this second international network seminar we will look at local protests against the restructuring of coastal landscapes and the regulation of coastal livelihoods. We will explore research in progress with regards to the social, economic, and ecological theory and praxis of political ecology issues in Scotland and Japan, and design a new collective research project.

**Monday 17 June –  
Formal opening and  
conference dinner**

**Tuesday 18 June –  
presentations  
Theoretical  
perspectives Tenure  
Rights Resilience**

**Tuesday pm Fieldtrip**

**Wednesday 19 June –  
Blue-Green Economy**

**Coastal conservation  
Wednesday pm  
Roundtable**
